

Spreaders

Product feature

Working thread with tapered pointed cross section, used in measuring root charge according to intended use

Material: Stainless steel

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25mm

Pluggers

Product feature

For vertical compression work, suitable for thick straight root canal for vertical compression of dental glue

Material: Stainless steel

Color: Silver

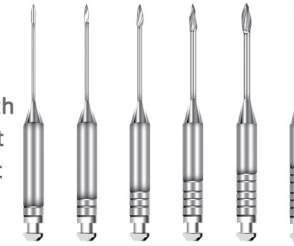

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25mm

Gates drills

Product feature

It is used to expand the root canal orifice and open the middle and upper segments of the root canal. G drill depth is limited to the straight part of the root canal and cannot enter the curved part of the root canal

Material: Stainless steel

Optional model: 1#, 2#, 3#, 4#, 5#, 6#

Specifications: 6 pcs/pack(assorted/single)

Length: 28/32mm

Paste carriers

Product feature

A spiral spring with a tight handle for conveying root canal pastes, sealers, etc

Material: Stainless steel

Color: Silver

Specifications: 4 pcs/pack(assorted/single)

Length: 21/25mm

Large taper files

Product feature

Large taper file is a variable taper root canal file with unique multi-taper change, which is different from the conventional root canal file. It can make the cutting of root canal more convenient, safer and more effective

Material: NiTi

Color: Blue/Silver

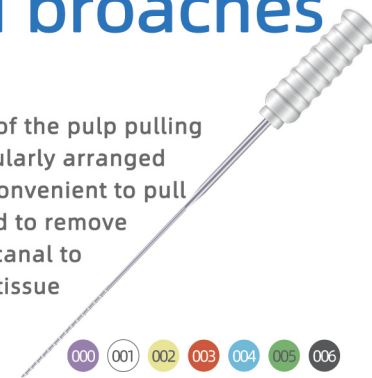

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25/31mm

Barbed broaches

Product feature

The working end of the pulp pulling needle has irregularly arranged barbs, which is convenient to pull out the pulp. Used to remove pulp tissue, root canal to remove necrotic tissue, detritus, paper twist, etc.

Material: Stainless steel

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25mm

Peeso reamers

Product feature

·The rounded blunt head at the top prevents the formation of steps and lateral penetration of the root canal.
·It is used for the preparation of 1/3 of the crown of the root canal or the position of the fiber pile

Material: Stainless steel

Optional model: 1#, 2#, 3#, 4#, 5#, 6#

Specifications: 6 pcs/pack(assorted/single)

Length: 28/32mm

Ultrasonic files

Product feature

Using the principle of ultrasonic shock, it is used for root canal washing to remove the calcification in the root canal

Material: Stainless steel

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

Length: 33mm

K Files

Product feature

- Good fracture resistance
- High elasticity
- No cutting edge at the tip
- Prevent the formation of steps or side penetration

Material: Stainless steel/NiTi

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25/31mm

cross section: ■

H Files

Product feature

- The cutting ability
- sharp tip
- Pull up and down cutting
- Little rotation as possible

Material: Stainless steel/NiTi

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25/31mm

cross section: ●

Reamers

Product feature

The cross section is triangular, the cutting ability is medium, the sharp point is strong

Material: Stainless steel/NiTi

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

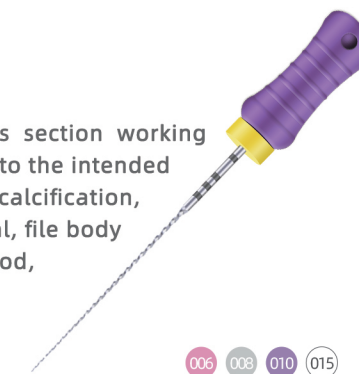

Length: 21/25/31mm

cross section: ▲

C Files

Product feature

With square cross section working thread,according to the intended use, easy to dreg calcification, difficult root canal, file body tip flexibility is good, can run smoothly along the wall of the root canal

Material: Stainless steel

Color: Silver

Specifications: 6 pcs/pack(assorted/single)

Length: 21/25mm

cross section: ■
